

4th Annual Meeting of the International Academy for Clinical Hematology (IACH) IACH 2021 September 24-26, 2021 virtual meeting

www.iachlive.cme-congresses.com

Faculty disclosures report

The IACH 2021 Meeting seeks to balance the important benefits of physician-industry relationships with the potential risk that the financial goals of the industry may conflict with the professional goals of IACH 2021 participants. In doing so, the IACH 2021 Meeting recognizes that it has a profound duty to its participants, the larger medical community and the public to ensure the integrity of all of its scientific, educational, and advocacy activities and materials.

Educational Content Development

The IACH 2021 Meeting requires all Program members and any others in a position to control the educational content to disclose any commercial financial interests prior to the development of the educational content. A process of resolution of conflict of interest is used for those members who do have financial interests related to the development of the content.

Presenters

The IACH 2021 Meeting considers financial relationships to create actual conflicts of interest when presenters have both a financial relationship with a commercial interest and the opportunity to affect the policy of the IACH 2021 Meeting of CME about the products or services of that commercial interest. The potential for Presenter to maintaining or increasing the value of the financial relationship with the commercial interest creates an incentive to influence the content of the CME – an incentive to insert commercial bias. All presenters of CME content should familiarize themselves with the policy of the IACH 2021 Meeting of CME based on the CME providers of the Meeting.

All IACH 2021 Faculty presenting CME are required to disclose the following prior to beginning their presentation:

- Any relevant financial relationships a CME presenter has had with manufacturers of commercial products or providers of commercial services within the past 12 months. The IACH 2021 Meeting defines "relevant" financial relationships as those with a commercial interest and the opportunity to affect the content of CME about the products or services of that commercial interest
- CME presenters who report they have no known relevant financial relationships to disclose will declare "No Financial Relationships"

IACH 2021 Financial Disclosure Codes

| Type of affiliation / financial interest | Code |
|---|------|
| Receipt of grants/research supports: | S |
| Receipt of consultation / advisory board / employment fees: | C |
